

## PRODUCT INFORMATION

### Sand & Gravel • Crushed Stone

Aggregates—commonly limestone, sand & gravel—are among the most used materials in the world. At Hilltop, we believe in supplying more than just our materials. For over 75 years, our knowledge, experience, unmatched service and product quality have made Hilltop the preferred choice for engineers, architects, contractors, and utilities building in the Ohio, Kentucky, Indiana, and West Virginia area.

Once crushed, our material is distributed and held at seven regional Hilltop locations. Products are available to customers—for pick up or delivery—by truck or barge.
